

## Special Track on Information Technologies Essentials in Education

Today, the curricula, the objectives of the subject matter, and the teaching approaches are important issues for the present and the future of the computing education.

The special track on Information Technologies Essentials in Education expects to cover current and future trends on Information Technologies in Education and to give the opportunity to educators, researchers and practitioners with interests in educational aspects of all computing disciplines to present and discuss research results.

### Major Topics

- Education in Informatics for pupils of all ages
- Students' everyday lives and computing education
- Teacher education in Informatics
- Research on computing education in universities/colleges/schools
- Computer tools in teaching and studying Informatics

### Paper Submission

- Papers due: **June 22, 2019**
- Notification due: June 30, 2019
- Camera-ready due: July 14, 2019
- Conference date: September 20-22, 2019

### Organisers and Co-Chairs

Spyridon Doukakis, Ionian University

Theodoros Karvounidis, University of Piraeus

### Submission Guidelines

(1) Short papers (3-4 pages) are also accepted.

(2) Please follow the instructions (<https://seeda2019.unipi.gr/authors/>) for the submission process and choose "Special Track 4..." for the Topic selection.
